Our Mission

Our mission is to empower businesses with cutting-edge IT solutions and exceptional talent, enabling seamless digital transformation. We strive to deliver excellence through staff augmentation, software development, and real-time training, fostering innovation and efficiency. By providing reliable 24/7 application support and expertise in SAP technologies, we aim to be a trusted partner for our clients' success and growth in the ever-evolving technological landscape.

Our Vision

Our vision is to be a global leader in IT solutions and services, empowering businesses with innovative technology and top-tier talent. We aim to build a future where organizations achieve unparalleled growth through our expertise in staff augmentation, software development, real-time training, and comprehensive support. By fostering excellence in SAP and emerging technologies, we envision transforming industries and driving sustainable digital success.

Why Choose Us Using Innovation to Deliver Success

Expert Staff Augmentation

- ZMIT Software Services provides expert Staff Augmentation in all technologies like JAVA, Full Stack Developers, SAP, .NET, AI/ML, Data Engineers, QA Experts...etc.

SAP S/4 HANA Conversion/ Upgrade Project

- We guarantee smooth upgrades, code remediation, code adaptations, code correction, and system optimization for improved performance with our new SAP S/4 HANA system.
- The SAP S/4HANA Conversion/Upgrade Project focuses on transitioning from SAP ECC to the next-generation SAP S/4HANA system. This involves converting the existing ECC system landscape to S/4HANA, ensuring data consistency, and optimizing business processes using S/4HANA's advanced features like the Fiori user interface and embedded analytics.

Global Support

- Complete round-the-clock assistance for smooth international IT operations.

Custom Solutions

- IT solutions that are specifically tailored to your company's needs.

Brownfield Implementation - S/4 HANA Conversion

Technical Upgrade from SAP S/4 HANA 1709 to any S/4 HANA system upto 2023.
Conversion of an existing SAP ECC Business Suite system to SAP S/4HANA.
Greenfield Implementation S/4 HANA Technical upgrade support from ECC to S/4 HANA.

Conversion of non-SAP system to SAP S/4 HANA system

We provide complete End-to-End support for the Customers who are migrating from a non-SAP legacy system or from an SAP ERP system and implementing a fresh system that requires an initial data load.

SAP S/4HANA system is implemented, and master and transactional data are migrated from the legacy system to S/4 HANA system.

S/4 HANA Code remediation Projects

During an SAP upgrade, the challenge is how to bring the good code with you, leave the bad behind you, and make the switch without risking business disruption. We extract, analyse, and transforms all your custom code to deliver secure, stable, and optimized code in a matter of weeks.

S/4 HANA System clean-up / code clean up

- DDLs part of \$TMP package
- Inactive objects
- Unadjusted SPAU_ENH objects
- Unadjusted objects from SPAU
- Unadjusted objects from SPDD
- SAP Notes Incompletely / Obsolete version implemented
- TR not assigned to project
- Partially active objects
- Handling of false positive objects
- Clone objects clean up.

Keeping code synchronized between production and project systems is highly challenging. We do provide developers for Dual Maintenance solution. We start working in the background to compare, merge, and transform new code to ensure 100% compatibility at go-live faster.

SAP Implementation and Support Projects

SAP ABAP Custom Developments and Support Projects. Our Implementation Approach efficiently manage the custom Implementation as below

- Understanding the business requirement
- Validating the business requirement
- Preparing FS and TS
- Development done
- Testing
- Approval from Business

L1/L2/L3,24*7 Software Application Support

We provide comprehensive L1, L2, and L3 24x7 Software Application Support services to ensure uninterrupted business operations.
